

Trillion business opportunities for Recycling industries

1. Semiconductor

Leading semiconductor manufacture factory are in Taiwan, Korea China and Japan.

2. PCB Industry

Lots of PCB manufacture factory are in Taiwan and China.

Before Gold stripping After Gold stripping

3. E-waste Recovery

1. Eco-friendly method of extract Tin and precious metal from E-waste
2. Without using any HCl or cyanide
3. Huge business opportunity in the world.

4. Gold Mine

1. Eco-friendly method of extract gold from gold mine.
2. Without using any mercury or cyanide.
3. Huge business opportunity in the world.

5. Catalyst Recycling

1. Eco-friendly method of extract Pt, Pd, Rh from catalyst.
2. Petroleum and car convert catalyst
3. Huge business opportunity in the world.
