

# SAVE ENERGY SAVE MONEY

## SWITCH IT OFF!

Turning Off Unnecessary Lights  
**SAVES ENERGY  
& MONEY**

- Turn off lights whenever a room is unoccupied, even if it's only for a few minutes.
- Try putting reminders next to light switches until you get into the habit.
- Install timers or photocells to control your outdoor lights.
- Turn off lights wherever there is adequate natural light.
- Use task lighting. Arrange the lighting so you can vary lighting levels and focus light where you need it most.
