Dear Sir/Madam,

We are glad to inform you that National Productivity Council, Chandigarh is organizing the above-mentioned residential training programme during December 10 – 14, 18 at Manali (HP).

As you are aware that an Office Management is the administrative handling, controlling & maintaining a balanced process of work inside the office of an organization, the office manager is therefore responsible for planning, organizing and controlling the office work, processes and evaluating the outcome. The role of office manager and office administrator has changed drastically over years as it is very important for an office manager/office administrator to get maximum office/employee productivity by effective utilization of space, manpower, equipment & other resources and also creating good work environment so that every employee contributes maximum according to his/her potential. Modern Office Management has become a prime concern of each and every employee who not only does the work but also gets the work done by his/her subordinates. The "Office of the Future" with three forces Computer, Communication and Human Resource has triggered the emergence of new concepts and patterns.

In today's economic climate, organizations face unprecedented pressure not only to achieve goals and meet expectations of citizens but also to deliver productivity and efficiency. The proper measurement of organizational performance, productivity and efficiency is therefore an essential part for general welfare of all groups in society and nation. Performance Management is therefore not only telling a person what to do and 'policing' them until it is done, rather, it is an integral part of the manager and employee's job. Hence Performance Measurement is a key process in any organization and should assist the management and staff to focus on key issues and business objectives to ensure sustainability.
