

INTRODUCTION

Project Management is a professional discipline with a body of knowledge and a specific set of skills and competencies. The environment in which organizations operate is rapidly becoming more complex than ever before. Major shifts in technology, business and economic environment presents ample opportunities and many challenges to organizations. Effective Project Management is essential to achieve project goals and objectives within the time and budget constraints.

Project Monitoring and Evaluation is often perceived as being relevant only to those who are employed in the higher ranks of an organization's Project Management team. However, Monitoring is a key control mechanism for ensuring quality, timeliness and efficiency of the project. It provides a way to assess the crucial link between implementers, beneficiaries and decision-makers by providing desired information showcasing project progress thereby contribute to transparency as well as accountability.

Project begins with pre-planned series of activities and events, however, things rarely worked out exactly as planned. NPC training programme would help to understand various approaches to provide greater control over project delivery. It has been designed to enable participants to contribute effectively within the organization by imparting tools and techniques of systematic collection and analysis of information to track the progress of project implementation against pre-set targets and objectives with a view to enhance managerial effectiveness and performance.

OBJECTIVES

- To impart concepts and techniques on Project Management to the participants;
- To provide the participants an opportunity for sharing experiences and team learning to meet diverse challenges;
- To establish an understanding of Performance Measurement of project;
- To describe the risk monitoring and controlling process;
- To enable the participants to carry out project monitoring and evaluation, and describe outputs common to all knowledge areas at their work place.

CONTENTS

- Concept of Project Management: Team, Roles and Responsibilities;
- Participatory Project Planning, Resource Management, Project Scheduling and Implementation;
- Concepts, Objective and Approaches of Project Monitoring and Evaluation;
- Tools and Techniques for Project monitoring and evaluation
