About NPC

National Productivity Council (NPC) is a national level organization to promote productivity culture in India. Established by the Ministry of Industry, Government of India in 1958. NPC seeks to realize its primary objective of productivity promotion through various means, including Consultancy, Training, Research and Productivity Promotions. NPC also implements the plans & programmes of the Tokyo based Asian Productivity Organization (APO), an inter-governmental body, of which the Government of India is a founder member. We specialize in courses for individuals and groups training capsules designed on different subjects like Industrial Engineering, Human Resource Management, Energy Mgmt., Environmental Engineering etc.

Industries are facing talent crunch to meet global competitive forces and survive in the market. At the same time they are required to produce their products and services with minimal inputs to have least impact not only on its working environment but also to the surroundings. Adapting Green Productivity (GP) approach is one of the way to achieve better productivity.

Green productivity is a strategy to move towards Sustainable Development which encompasses triple bottom line approach and addresses economic, environment & social aspects which will enable addressing competitiveness & environmental issues. To realise the full potential of this holistic approach an integrated knowledge of systems & productivity improvement and analytical & auditing tools & techniques are essential. Academicians & trainers need to focus on how to impart the knowledge of these tools to enhance the skills of students/workers, new employees and shop floor staff for better productivity.

This Training of Trainer (ToT) program will help you to get necessary information about GP and how to introduce this approach in your training / teaching programs to enhance the skills of your workers in industry, the employability skills of your students and for you to get certified as a Green Productivity (GP) Trainer cum expert based on our in house knowledge base.

Objective

To train the trainers in Green Productivity with in-depth knowledge and hands-on experience.

Coverage

- Productivity & Green Productivity Concepts, Principles and measurement methods.
- Environment & Energy Audit - Case study Approach.
- Introduction to EMS, EnMS & OHSAS & Integration of systems
- Case Exercise of conducting Internal Audits

Methodology

- Lecture sessions, Case Studies, Group Exercise, Quiz & Visual aids

Resource Persons

- Internationally trained GP Expert & Senior NPC Consultants

Target Group

- Academicians, Managers, Consultants, Regulators

Programme Fee

The professional fee for the program is **Rs. 6,000/-** per participant (which includes course fee, reading material, working lunch & tea) **plus GST @ 18%** payable to Government of India.
