E-Learning Course Title: An Introduction to Python Programming

Registration Fee (including GST):- 1800/-

About eLearning Program: -- This course provides an introduction toPython and programming basics.

E-Learning Course Coverage:- This course is covered in 3 modules. Each module takes us through the various concepts of Python programming.This course provides an introduction to programming and the Python language. Students are introduced to core programming concepts like data structures, conditionals, loops, variables, and functions.

This course includes an overview of the various tools available for writing and running Python.
- Identify core aspects of programming and features of the Python language.
- Use different tools for writing and running Python code.
- Understand and apply core programming concepts like data structures, conditionals, loops, variables, and functions.
- Design and write fully-functional Python programs using commonly used data structures, custom functions, and reading and writing to files.

Thanks & Regards
