Registration Fee (including GST):- 1500/-

About eLearning Program : - This course provides an Introduction to user Experience Design

E-Learning Course Coverage (Specify Module details) :- The focus of this course is to introduce the learner to User Experience (UX) Design. In this course we introduce the user to the user interface design cycle. And put forward a set of techniques to gather information about

- what the user needs
- how to design and model interfaces based on these and
- Then how to evaluate the design to ascertain that the user's goals are met.

These techniques are tools that are used in a standardized manner and give us the data we use in our design. The course is designed for beginners and anyone can learn this course without any prior knowledge of User Experience design.
