

# JUST-IN-TIME

**E-Learning Course Title: JUST-IN-TIME**

**Registration Fee (including GST):-Rs. 1500/-**

**About eLearning Program: -**

JIT is a programme directed towards ensuring that the right quantities are purchased or produced at the right time and there is no waste. It should not be taken purely as a material control system, but a combination of TQM, TPM, lean manufacturing, employee involvement and team work. JIT will not work if the above combination is not in place. An important outcome of JIT is a disciplined programme for improving overall productivity and reducing waste.

**E- Learning Course Coverage:-**

1. Just-in-time, cellular manufacturing
2. Process mapping, analysis and design
3. Customer focused principles, smed
4. Low cost automation, jit and industry 4.0
