About eLearning Program: -

It is the moral and social responsibility of every organization to have an environmental management system. An EMS helps an organization reduce its impact on the environment while simultaneously improving operating efficiency. The ISO 14000 suite of standards provides practical tools that help organizations of all kinds to manage their environmental responsibilities. ISO 14001:2015 focuses on environmental systems to achieve this. An ISO certified professional can help improve an organizations environmental goals by reviewing, and improving policies and processes, analysing long-term and short-term environmental impact and ensuring that the company is meeting legal requirements. ISO 14001:2015 specifies the requirements for an environmental management system that an organization can use to enhance its environmental performance. ISO 14001:2015 is intended for use by an organization seeking to manage its environmental responsibilities in a systematic manner that contributes to the environmental pillar of sustainability.

E-Learning Course Coverage:-

1. Overview of EMS ISO 14001: 2015
2. Terms and Definitions
3. Requirements of ISO 14001 : 2015
