

E-Learning Course Title: WASTE MANAGEMENT AND POLLUTION PREVENTION

**Registration Fee (including GST):-
Rs. 1500/-**

About E-Learning Program: -

The E-learning program on “Waste Management and Pollution Prevention” helps participant to easily understand the various environmental challenges the country is facing today like Hazardous Waste Management, Industrial Air Pollution Prevention and Control, E-Wastes and Plastic Wastes Management etc. and gives sound examples/guidelines to manage these wastes effectively and efficiently.

It also focuses on advanced Waste Management and Environmental Tools like Cleaner Production (CP) and Material Flow Cost Accounting (MFCA) and Reduce Recycle Reuse (3 ‘R’) concept which are all aimed towards Waste Minimization, Pollution Prevention and Resource Recovery. The Course also enlists the roles and responsibilities of citizens for a Green and Sustainable environment.

E-Learning Course Coverage:-

Module 1	Waste Management I – Hazardous Waste Management, Co-processing
----------	--

	of Hazardous Wastes and Industrial Air Pollution Control
Module 2	Waste Management II – E- Waste Management and Plastic Waste Management
Module 3	Cleaner Production
Module 4	Cleaner Production : Case Study Discussion
Module 5	MFCA – ISO 14051 and Case Study Discussion
Module 6	Waste Management and Pollution Prevention

Register to learn:

1. Hazardous Waste Management
2. Co-processing of Hazardous Wastes
3. Industrial Air Pollution Control
4. E- Waste Management
5. Plastic Waste Management
6. Cleaner Production
7. Cleaner Production : Case Study Discussion
8. MFCA – ISO 14051 and Case Study Discussion
9. Waste Management and Pollution Prevention

Thanks & Regards

NPC, RD, Gandhinagar
