

## **Water Audit in industries – The Need of hour**

**Registration Fee (including GST):- Rs 1500/-**

**Kindly Register before 30 November, 2020**

**Commencement Date/Week:** 1<sup>st</sup> Week of December 2020 (User Login details to access the course will be communicated to the registered user in the 1<sup>st</sup> week of December, 2020)

### **About eLearning Program: -**

Water auditing is a method of quantifying water flows and quality in simple or complex systems, with a view to reducing water usage and often saving money on otherwise unnecessary water use. Water auditing is a mechanism for conserving water, which will grow in significance in the future as demand for water increases.

### **E-Learning Course Coverage:-**

Module 1: Introduction

Module 2: Water Distribution System and Networks

Module 3: Water Pumps

Module 4: Water Balance, Water Conservation and Automation Techniques

Module5: Water Quality and Standards related to Water Audit

Module6: Instruments for Water Audit

Module7: Water requirement in thermal power plants

### **Register to learn:**

- Need of water audit
- Mandatory Clauses
- Water Balance
- Industrial Case study
