## 1. ABOUT NPC

The present expertise available in NPC has a resource base of professionals from fields such as Economics, Industrial Engineering, Human Resource Management, Energy, Environment, IT, Project Monitoring and Evaluation, Research Studies and Baseline Surveys. In addition, services of external professionals and subject matter specialists are also sought on need basis, depending upon the nature and scope of work. NPC has professionals from diverse fields to provide Consultancy, Capacity Building and Project Monitoring Unit (PMU) services to various organisations including Central Government Ministries and State Governments.

## 2. PROGRAMME THEME

Negotiation and Conflict Resolution are crucial skills both inside and outside of workplace. No other business **skill** may be as important to success as negotiation. We negotiate everything: agreements with partners and vendors, in-scope/out-of-scope parameters around important projects, and our own compensation and job responsibilities, to name just a few.

Understanding your counterpart's interests and shaping the decision so that the other side agrees to a proposal for its own reasons are the keys to jointly creating and claiming sustainable value from a negotiation. Most executives know the basics of negotiation; some are spectacularly adept. Yet even experienced negotiators routinely leave money on the table, end up in deadlock, damage relationships, or allow conflicts to spiral.

Quite often, there is an element of conflict between the parties involved in a negotiation, which extends beyond the matters ostensibly being negotiated. Such conflict might have its origins in disputed facts, differing values or incompatible policies. Personal conflicts, interpersonal conflicts and structural conflicts all point to the need for more effective tools for lasting problem-solving.

## 3. LEARNING OBJECTIVES
