1. ABOUT NPC

National Productivity Council (NPC) is an autonomous organization under the Department of Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India. The present expertise available in NPC has a resource base of professionals from fields such as Economics, Industrial Engineering, Human Resource Management, Energy, Environment, IT, Project Monitoring and Evaluation, Research Studies and Baseline Surveys. In addition, services of external professionals and subject matter specialists are also sought on need basis, depending upon the nature and scope of work. NPC extends services from its headquarter at New Delhi and 12 regional offices across the country manned by more than 100 full time professionals. NPC has professionals from diverse fields to provide Consultancy, Capacity Building and Project Monitoring Unit (PMU) services to various organisations including Central Government Ministries and State Governments.

2. PROGRAMME THEME

Safety is the state of being safe from the hazards of the work environment. Industrial Safety is state of being safe from the hazards (safety, health & environmental) associated with the industry. Industrial Safety refers to the management of all operations and events within an industry in order to protect its employees and assets by minimizing hazards, risks, accident, and near misses. Industrial Safety is primarily a management activity which is concerned with the Reducing, controlling, Eliminating hazards from Industries and industrial Units.

3. LEARNING OBJECTIVES

- The safer the work environment, the more productive it is. Productive employees are an asset to all companies, they can produce more output in less time, reducing overall operational costs.
- Industrial safety promotes the wellness of employees and employers alike. Better safety equates to better health. Healthier employees do tasks more efficiently, and they are happier in general. Effectively decrease accidents.
- There are very few accidents in a safe working environment. This results in less downtime for safety investigations and reduces costs for worker's compensation. This also reduces the time needed for employees to heal from injuries.
- Damage to industrial equipment creates costs for replacement and repair. Avoiding workplace injuries and damage to industrial equipment will incur fewer expenses and increase profit.
- If employers are concerned about the safety of their employees, the employees are more confident and comfortable in general. Also, absenteeism rates drop, and employees are more focused on doing their tasks. Positively impacts employee morale and retention.
- When employees are trained and capable of providing emergency aid, it can make the difference between life and accidents.
