

Webinar Title: "Electricity Act and Electrical Safety in the Industrial Units"

Registration Fee (including GST):- Rs. 99/-

Expert Speaker: – Mr. BHASKAR NAYANCHANDA RAVAL, Freelance Consultant

About Webinar: -

Electrical accidents are in the forth rank whereas the first is Road Accidents, 2nd Construction Accidents, 3rd Rivalry accidents and 4th Electrical Accidents. More than 12000 people in the country are getting electrical shock per annum and fatal/non-fatal accidents are registered. Most of the time the accidents are occurring due to not following the norms prescribed by the concerned authorities.

The use of personal protection equipments is also avoided by the person concerned those who are working on electrical live lines. The same would be discussed during the meeting for the supervisors and persons working on live wires to avoid electrical shock.
