

Webinar Title: “Implementation of Public Private Partnership (PPP), issues/ challenges & way forward for next generation PPP projects”

Fee (Including GST):- Rs. 99/-

About the Webinar:

With a view to increase the quality, efficiency and competitiveness in service delivery of public infrastructure, a certain degree of supplementation through support and partnership with private sector has led to the evolution of the idea of Public Private Partnership (PPP). PPP complements the management skills and financial acumen of private businesses by creating better value for money for taxpayers when proper cooperative arrangements between the public and private sectors are used. Over the years, the concept of PPP has been popularised across different corners of the world and have also witnessed its roots to different sectors of the economy. Along with its benefits realised, PPP projects have also faced various challenges in terms of implementation, value creation and sustainability while simultaneously evolving some of the best practices. This webinar would not only provide insight to academicians, policy makers, and implementing agencies in terms of understanding the key challenges of PPP but also would provide an opportunity to learn benefits and best practices.

Key Learning Points:

- Evolution of Public Private Partnership (PPP) and its benefits
- Experience in implementation of PPP projects by Central Govt./ State Govt./ Public Sector Organizations and other various agencies
- Challenges and issues during implementation of PPP Projects across different sectors
- Best practices by leading countries in implementation of PPP projects
- Learning & Way forward for next generation PPP projects.

About the speaker:

Mr. Anil Gandhi has over 24 years of professional experience in handling various infrastructure projects for private, government and international agencies providing advisory services to government agencies for development of infrastructure projects. He has worked with big infrastructure companies like Larsen & Toubro, Reliance Industries Ltd. with diversified experience in developing infrastructure projects in Oil & Gas (both upstream and downstream) and civil infrastructure such as highways, ports and water supply. During the last 2 decades, he has been focusing on policy initiatives for PPP, institutional development, capacity building, sell side transaction advisory services and placement of funds, equity as well as debt, for various government bodies and private sector players. In addition to handling domestic projects, Mr. Gandhi has successfully handled PPP mandates internationally in countries like Philippines, Nepal, Ghana, and Azerbaijan.
