

Virtual Webinar: Lean Tools for Supply Chain Management [Just In Time / KANBAN]

Supply Chain Management is the management of the flow of goods and services that includes all processes from raw material receipt to finished goods supply. **KANBAN** is a lean manufacturing system of obtaining required items “**Just in Time**” for their introduction into the subsequent process. It’s a lean manufacturing tool to eliminate waste and improve productivity. Experts will be sharing experience with real industry examples.

Webinar Coverage:

1. History & Evolution of JIT in Japan
2. Process & implementation
3. Benefits of JIT System
4. KANBAN – Implementation process & Benefits
5. Inventory Control – Why & How
6. Inventory Turnover Ratio (ITR)
