Webinar on

“Robotic Process Automation – The Game Changer”

About the webinar:

Robotic Process Automation (RPA) Robotic process automation is the use of specialized computer programs, known as software robots (Referred as BOT), to automate and standardize repeatable business processes.

Objective:

To impart knowledge to the participants to explore the applicability of RPA in their day to day work and achieve better efficiency, profit & customer delight in their organizations.

Webinar Coverage:

- Understand the new challenges that business face post COVID -19
- Brief history and evolution of Robotics Process Automation
- How much of our day to day activities are objective and subjective?
- Why many RPA initiatives do not achieve the intended results?
- RPA framework
- RPA project life cycle
- How does this concept help organizations redefine their value proposition?

Please contact Shri M Natarajan at m.natarajan@npcindia.gov.in for any queries.
