

NATIONAL PRODUCTIVITY COUNCIL

PRESENTS A WEBINAR ON

**"WATER AUDIT – SOURCE TO
SINK ASSESSMENT WITH
CASE STUDIES"**

In view of ever increasing demand for fresh and diminishing availability of fresh water, it is prudent to utilize the available water resources as efficiently as possible. In this scenario water audit has emerged as an useful tool to encourage optimum utilization of water. Many companies are adopting water audit and water conservation as part of their work culture. A mandatory inclusion of water auditing and disclosure of water footprint in annual reports will go a long way in making corporate India improve its accountability towards reducing waste of fresh water.

Webinar Coverage:

- Basic understanding of water audit methodology
- Concept of grey , blue and green water
- Assessment of water supply sources to the system
- Assessment of water usage in the various areas
- Evaluation of water conservation measures adopted
- Case studies
