

# Virtual Webinar: Visual Management

**Visual management** is a technique employed in many places where information is communicated by using visual signals instead of texts or other written instructions. It is a way to **visually** communicate expectations, performance, standards or warnings in a way that requires little or no prior training to interpret. Experts will be sharing experience with real industry examples.

## Webinar Coverage:

- Visual Factory / Visual Management
- Implementation Process
- Benefits of Visual Management
- ANDON – Requirement and Benefits
- Visual Control

## Speaker Profile:
