

**Quality Circle-
A way to Quality Improvement**

NATIONAL PRODUCTIVITY COUNCIL

Presents Webinar on

Quality Circles

On 19 September 2020, 11:00-13:00 hrs

A quality circle is a participatory management technique that enlists the help of employees in solving problems related to their own jobs. Circles are formed of employees working together in an operation who meet at intervals to discuss problems of quality and to devise solutions for improvements. Quality circles are small groups of workers of different levels in the firm who come together to discuss and solve problems in production. Employees involved in quality circles may become more motivated as they feel valued within the company.
