On 30th September 2020 at 14:00 Hrs. to 16:00 Hrs.

Problems do not go away; rather they have a habit of growing unless dealt with effectively by a good manager or team member. There is always another way to do it, it might be cheaper, quicker or sell more. Creative problem solving is a great asset to any manager.

Webinar Coverage:

This creative problem-solving course looks at methods and techniques to find new and innovative ways of solving those challenges and ensuring the upward progress. The webinar will help participants think beyond the needs of the present moment, develop creativity and apply lateral thinking to stimulate innovation in the workplace..

★ Participants will be provided E-Certificate towards Participation
