

Webinar Date: 27.11.2020 | **Duration:** 1 Hr | **Time:** 330 PM to 430 PM

Registration Fee: Rs. 413 (Including GST)

About Webinar:

Lean Management is a systematic, continuous improvement approach that concentrates on creating more value for customers by eliminating activities that are considered waste, i.e., any activity or process that consumes resources and adds cost or time without creating value.

Lean Management applies to the entire organization and supply chain and can provide the foundation for widespread organizational improvement. To “think lean” is to switch from an internal to an external focus. After becoming accepted in the manufacturing industry, lean is increasingly being applied across other sectors from healthcare, retail stores, and banks to offices, call centers, hospitals, and government departments.

Webinar Coverage:

- Lean Management & its origins
- Principles of Lean Management
- The 7 Wastes
- Lean Tools
