

# NPC - India Presents Webinar on Series on Asset Integrity and Reliability

## Webinar 1:

**Introduction & strategy to Asset Integrity Management**      **9<sup>th</sup> October 2020**      **11.am-12.00 noon**

The webinar will be a preliminary introduction to Asset Integrity and Reliability concepts along with terminology and definitions. Common cause failure examples and identification of a deficient program will be highlighted. An overview of best practices in the field of Asset Integrity and Reliability will be shared with the participants. An introduction to risk matrix and its integration to the Asset Integrity program with basic fundamentals will be discussed.

## Webinar 2:

**Asset Integrity & reliability work flow management**      **16th October 2020**      **11.am-12.00 noon**

Process Safety Information needs to be up to date in order to determine a baseline asset condition. Tips and tricks for ensuring validated information are available for Asset Integrity. Inaccurate information poses a risk of rework and hence a careful validation of relevant process safety information across facility database plus onsite field verification.

## Webinar 3:

**Risk based inspection of assets**      **20<sup>th</sup> October 2020**      **11.am-12.00 noon**

The final webinar in this series will focus on risk based inspection techniques and methods to develop inspection plans. A few examples from API 580 will be highlighted. An overview on inspection database maintenance systems and integration with RBI database will be discussed. Finally a risk based approach to deficiency management, operation, and resolution sufficient for continued operations will be highlighted.
