**About Webinar: -**

Right To Information Act 2005 has given an opportunity to citizens of this country to know the various welfare and development activities of every public authority so that they now become aware of their rights to get the information required. This Act promotes transparency in administration and also creates accountability amongst the officials, thus paving the way to contain corruption in public life. This is a time bound Act within which time the request of the citizen must be responded to by various level officers designated under this Act. The designated officers in every public authority i.e.,
