

Webinar Title: E-waste recycling and IT Asset Disposition

Webinar Type: Registration Fee :- Rs 362/-

E-certificates will be issued on participation

Expert Speaker : Suman Maity, Deputy Director (Environment)

Webinar Date: 28.09.20 | **Duration:** 60 minutes

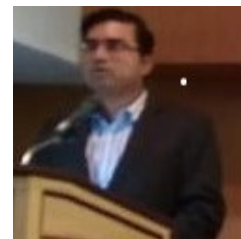

Time Slot : 1500 hrs to 1600 hrs (Afternoon)

About Webinar: - There are now more electronic devices on Earth than there are humans, and devices are projected to grow to 25-50 billion by the end of this year. Electronic devices are the world's fastest-growing waste stream. The United Nations is calling it a tsunami of e-waste. Technology is evolving rapidly and refresh cycles are shrinking. As a result, the process of recycling and IT asset disposition (ITAD) is more complex and introduces significant business risk for you and your organization. A properly designed IT asset disposition program is one that meets all of your disposal needs while maximizing retired asset value in a secure, efficient and environmentally-friendly manner.

Webinar Coverage:-This webinar highlights the following key points:

- E-Waste - sources, types and effect
- Methods of disposal of E-waste
- E-waste management rules
- Why E-waste management ?
- Recycling techniques
- IT Asset Disposition

Speaker Profile:-Sh. Suman Maity, is working as a Deputy Director with National Productivity Council, Kolkata, Environment Division and having 18 years of experience in the field of Environment Management. He has executed several consultancy projects in the field of Environment Management and acted as a trainer for various capacity building, awareness and training programmes.
