

# National Productivity Council, New Delhi presents

Webinar  
on

## Energy Efficiency in Buildings

**23<sup>rd</sup> August 2021**  
**3PM-4PM**

**Expert Speaker:**

**Dr. Dibakar Rakshit**

**Associate Professor, IIT Delhi**

**Registration Fee: Rs. 500/- (all inclusive)**

**Contact:**

**Mr. Prashant Srivastava**

**Deputy Director & Head (EM)**

**Energy Management Division**

**Ph. No.: 011-24607365**

**Registration Link:**

**<https://bit.ly/3zJygVM>**

# Webinar Coverage

## Energy Efficiency in Buildings

The talk will cover post-covid occupancy keeping in mind the building energy efficiency.

## About the Speaker

### Dr. Dibakar Rakshit

Dr. Dibakar Rakshit is currently an Associate Professor at Centre for Energy Studies, Indian Institute of Technology Delhi (IIT Delhi). He has nineteen years' experience in thermofluid sciences pertaining to design and optimization of energy systems.

His PhD at The University of Western Australia involved studies of multiphase mass transfer phenomenon related to thermal diffusion of Liquefied Natural Gas (cryogenic fluids). From there Dr Rakshit developed his deep interest for thermal energy storage and pursued it further in his post-doctoral research at Australian Solar Thermal Research Initiative (ASTRI), CSIRO, Australia. Dr Rakshit was mainly involved in characterizing the thermal behaviour of the solar receiver heat transfer fluid required for power generation.

**E-Certificate will be provided to the registered participants**
