**Webinar Date:** 10<sup>th</sup> August 2020 at 03:00 PM | **Duration:** 90 Minutes

#### **About Webinar: -**

Over the last few years, there is an exponential growth in the demand for the PMP (Project Management Professional) certified Project Managers in India. Most of the parent companies / customers in Software development / ITES/ KPO/BPO / Manufacturing / Construction / Infrastructure sectors across the Globe insists that their Indian counterparts / suppliers should employ only PMP certified Project Managers to ensure that the projects are completed on time and within budget successfully. According to a survey, a PMP certified Project manager gets 25-30% salary higher than his non PMP certified counterpart. There is a global recognition for the PMP certification. The webinar gives an overview on the Project Management Framework and PMP examination

#### **Webinar Coverage: -**

What is PMP Certification, Information on PMP examination, Information on PMP Certification and Recertification procedures, Benefits of doing PMP certification, Fundamentals of Project Management Framework, Case study on application of Project Management framework in solving a real life problem

#### **Speaker Profile (Brief One Para & Photograph):-**

Annamalai is a B.Tech graduate from the prestigious Indian Institute of Technology, Varanasi and has over 30 years experience in production and quality management. He has worked in Electronic component manufacturing and e-publishing domains both in production

and quality. He was certified as a PMP (Project Management Professional) from PMI (Project Management Institute) way back in 2011 and was re-certified as a PMP in 2014 and 2017. He has vast experience in taking 35 hours PMP session both for corporate and open class participants. He has also helped corporate companies in certifying participants at various levels in Project Management and helped them to implement the Project Management concepts in their area of work. During the webinar, you will be exposed to a real life problem where the concepts described in PMBoK (Project Management Body of Knowledge) can be used effectively for solving the problem.
