Expert Speaker (Name/ Designation) – Shri Ankur Dhir, National level Consultant cum Trainer for management system standards

Webinar Date: 25.12.2020 Duration: 11.00 hours to 12.30 hours (one hour thirty minutes)

About Webinar (Brief One para): - An Environmental Management System (EMS) is a set of processes and practices that enable an organization to reduce its environmental impacts and increase its operating efficiency. The EMS provides a framework that helps an organisation achieve its environmental goals through consistent control of its operations. An EMS is a continuous improvement process with the following basic elements:

- reviewing the organisation's environmental goals
- analysing its environmental impacts and legal requirements
- setting environmental objectives and targets to reduce legal requirements
- establishing programs to meet these objectives and targets
- ensuring employees' environmental awareness and competence

The requirements of ISO 14001:2015 standard clause-by-clause will be explained in details in the webinar so the standard can be implemented in true spirit and organizations can take maximum benefits from implementation of Environment Management System based on ISO 14001:2015 standard
