About Webinar (Brief One para): -

Designed to help entrepreneur to develop Resilient in the adverse situation so as to sustain the current situation and move forward in life.

All of us work in a business environment that is constantly changing, is intense and is unrelenting. Entrepreneurship is a never-ending path of interesting challenges, minor and major setbacks, and potential roadblocks on most of the stages. The struggle may be inevitable, but the way you frame your setbacks is completely up to you, and may be the very thing that helps you succeed.

The American Psychological Association defines resilience as, “the process of adapting well in the face of adversity,” and it’s particularly valuable quality for those looking to start or grow a business.

If you are currently struggling with your resilience, now is the Time to make yourself stronger. You cannot control negative events that happen in your life. But you can control how you respond and Resilience can be your secret to success

Resilience is not something you’re born with. But it is a skill set you can build.

Resilience strategies covered in the workshop helps you cope with the current situation, make the best of things and rise to the occasion.
