Webinar on ISO 45001, Occupational Health & Safety

30th Nov. 2020 at 3 PM

About the Webinar:

The Webinar shall discuss about ISO 45001, the first global Occupational Health and Safety Management System standard that replaces OHSAS 18001. ISO 45001 is intended to be applicable to any organization regardless of its size, type and nature. All of its requirements are intended to be integrated into an organization's own management processes.

For organizations that are serious about improving employee safety, reducing workplace risks and creating better, safer working conditions this webinar should not be missed.

The speaker shall share his experiences in implementing this standard and the benefits accrued by organisations who have implemented this standard.

This shall be useful to students, academicians, entrepreneurs, HSE managers, engineers and all levels of professionals who want to understand the ISO 45001 international standard.

Key Learnings:

- Main principles and concepts of Occupational Health and Safety (OH&S)
- Understand the main requirements of ISO 45001
- How can you identify hazards?
- What is Risk and how to assess it?
- How do you perform Risk control Management?

About the Speaker:

Mr. Dev Deepta Nandy is a Graduate in Electrical Engineering & Post Graduate Diploma in Business Management.

He is also certified Lead Auditor for ISO 9001, ISO 14001, ISO 45001 & certified Internal Auditor for ISO 50001 & SA 8000.

His total working experience is 15 years in India and Nepal.

E-certificates shall be provided to all participants

Participation Fee: Rs 590/- (inclusive of GST)
