**Webinar on Multiple Intelligences & National Education Policy 2020**

**Sept. 14<sup>th</sup>, 2020 at 11:30 AM**

**About the Webinar:**

Traditional notion of measuring “intelligence” based only on IQ testing is considered far too limited now-a-days. Instead, social scientists and psychoanalysts have come up with eight different intelligences to account for a broader range of human potential.

Each human being is unique, so one standard size cannot fit all. Same type of teaching method and pedagogy can only produce herds of “excellent sheep” without creativity and innovation.

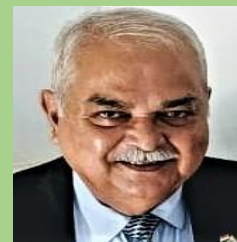

The recently announced National Education Policy (NEP) 2020 largely tries to take care of these aspects.

This shall be useful to students, academicians, professionals and anyone who want to understand Multiple Intelligence concept & its relationship with the National Education Policy 2020.

**Key Learnings:**

- Multiple Intelligence concept
- Snippets of NEP 2020
- Inter-relationship between Multiple Intelligence and New Education Policy 2020

**About the Speaker:**

Mr. Parag Phukan is a highly experienced former top corporate Executive and presently an empaneled Principal Advisor/Consultant with the National Productivity Council. He is also a Corporate Trainer, management consultant, freelance writer and Director of Guwahati Management Association.

**E-certificates shall be provided to all participants**

Participation Fee: Rs 354/- (inclusive of GST)
